+ Opera

Artist-run workshop & photographic studio

The perfect location for your work of art, exhibition,
video or photographic production and more.

+ Welcome to our multifunctional space in the vibrant neighborhood of Nolo.

Opera is a historical multifunctional space in the lively neighbourhood of Nolo (North of Loreto). As the result of the rework of a historical iron workshop in Viale Padova (close to Pasteur Metro Station, 10 min from Duomo). Now the loft welcomes a variety of activities: cultural and community initiatives, exhibitions, workshops, and video shooting.

Opera is a project born out of the dream and needs of 4 architecture students who gave up their small flats for an iron workshop in 2005.

It was an irregularly shaped open space, 7 meters high. The team re-designed the premises as a large architecture workshop. We produced movable furniture, sleeping units, and workspaces, all mounted on wheels. The result is a modular space that can change according to the needs. The service areas (bathrooms, kitchen, and workshop) are the only stable elements. The wheeled elements can transform the space,

creating new environments for different purposes. The interior design of the sleeping units can be configured on demand. Both the mezzanine and the portable scaffolding allow for a top view of the space.

After being the home and office for the first team of designers and architects, the space morphed into a shared studio in 2015.

Technical Info

- | | |
|--------------------------------|---|
| • Capacity: 150 ppl | • Nolo Zone, near Loreto Square and Pasteur Metro Station |
| • Ground floor area: 160 sqm | • Car access from courtyard |
